

HAMMAD AHMED

MERN Stack Developer | Karachi, Sindh, Pakistan

0311-0250787 | syedhammadahmed121@gmail.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

MERN Stack Developer with hands-on experience building full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in developing responsive, high-performance UIs, integrating REST APIs, and implementing real-time database solutions with Firebase and Supabase. Strong foundation in modern JavaScript (ES6+), state management, and mobile-first responsive design. Quick learner with a track record of independently shipping and deploying complete e-commerce and finance applications.

TECHNICAL SKILLS

- Languages:** JavaScript (ES6+), HTML5, CSS3
- Frontend:** React.js, Next.js, Redux/React Hooks, Tailwind CSS, Bootstrap, Responsive/Mobile-First Design
- Backend:** Node.js, Express.js, REST API Design & Integration
- Databases:** MongoDB, Firebase (Firestore), Supabase
- Tools & Platforms:** Git, GitHub, Postman, Figma, Vercel, VS Code

INDEPENDENT PROJECTS

Cakes Villas — MERN Stack Cake Ordering Platform

[Live Demo](#) | [GitHub Repo](#)

- Engineered a full-stack e-commerce ordering platform using the MERN stack (MongoDB, Express.js, React, Node.js) with a secure admin dashboard for order tracking and product management.
- Implemented dynamic routing and global state management using React Hooks, reducing component re-render times and improving data flow efficiency.
- Built a responsive, mobile-first UI delivering a seamless checkout experience across devices.

Inferno Grill — Fast Food Delivery Platform

[Live Demo](#) | [GitHub Repo](#)

- Developed a high-performance food ordering interface with real-time data synchronization via Supabase backend services.
- Architected a mobile-first UI with Tailwind CSS, optimizing asset loading for a smooth, low-latency customer journey.
- Integrated dynamic product filtering and an interactive shopping cart to enhance user engagement.

Expense Tracker — Real-Time Finance Application

[Live Demo](#) | [GitHub Repo](#)

- Built a real-time financial management tool using Firebase Firestore for instant data persistence and secure user data tracking.
- Designed secure authentication flows and interactive transaction history dashboards with reusable React components.

ADDITIONAL EXPERIENCE

Clerk — Asco International, Karachi

12/2024 – Present

- Managed documentation, digital record-keeping, and operational workflows, ensuring high accuracy and organizational efficiency.

Cashier — Pizza Max, Karachi

09/2023 – 12/2023

- Handled daily financial transactions, customer service, and point-of-sale (POS) operations in a fast-paced environment.
